9-12 years

Today's Project: Rene Magritte

Historical Context/Artistic Inspiration: Students will work on still-life drawing through the surrealist lens of Rene Magritte. This will help us prep for our 3D Claes Oldenburg sculptures.

Vocabulary: Surrealism, Blending, Tint/Tone/Shade

Summary: Today in class students were learning to hone their drawing and observational skills by doing still life pastel drawings. To add an extra twist they teleported their still life object into a surreal landscape that Magritte would be proud of.
